

AVVOLGIBILE IN ALLUMINIO ESTRUSO ANTISOLL CIECA

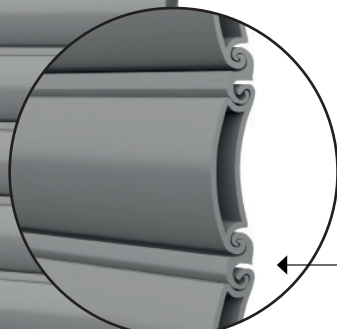

BLOCCAGGIO STECCA

STANDARD
CON TAPPO
LATERALE
AVVITATO

Antisoll Cieca è un sistema esclusivo che combina il concetto di tapparella classica con quello di un forte deterrente contro le intrusioni esterne.

Questo modello utilizza un bloccostecca che ne impedisce l'innalzamento. Il sistema genera, in quattro punti di ogni stecca intermedia, un blocco contro la guida, evitando il sollevamento. Si auto-blocca senza la necessità di dispositivi o elementi esterni al telo. Funziona con guide standard.
