ARIALUCetherm® è la tapparella che coniuga i punti di forza dei due modelli già esclusivi della Pinto: Arialuce e Duero. Il vantaggio dell'isolamento termico conferito da Duero incontra con successo il design a foro largo di Arialuce. Il prodotto, innovativo, soddisfa le esigenze funzionali ed estetiche delle nuove tendenze del mercato di riferimento.

Finiture, sempre più strategiche per la differenziazione

Da quando le finestre e le tapparelle sono percepite come elemento di interior design, l'attenzione del mercato si è spostata sull'estetica, per cui colore e texture delle finiture hanno conquistato un valore che in passato non avevano. Da qui, il grande ampliamento dell'offerta in grado di soddisfare anche il mondo dell'architettura e dell'interior design sempre alla ricerca di innovazione.
